

LLNA MINUTES DECEMBER 4, 2008

IN ATTENDANCE: Jon Folsom, Martha Folsom, Frank Vigna, Steve Foss, Dan Lord, Linda Lord

Last month's minutes were approved.

Dan reports we have about \$2100.00 in our treasury.

Jon and Steve have submitted our annual report to the government. Reminder: we are non-profit but not tax exempt.

We had 48 paid memberships in 2008. We will hold off requesting 2009 dues until we have the calendar of events ready.

Steve hopes that February 1, 2009 will be the release date for our website. He will also try to get the website team together for a meeting on January 6th.

In order to 'go green', we will look into putting our next newsletter on the web. We may do a postcard mailing and put an article into the newspaper to alert people to the website.

Jon (reporting on the CLC) let us know that Savas is being recognized by SUASCO for having the (regional) "Municipality of the Year". Jon will obtain a press release for our website. There is also a possibility of Savas taking the rain gardens town-wide. Jon will have more CLC information at our January meeting.

Jon also asked if anyone might be interested in joining the 'bike path committee'. This would be through the Conservation Trust.

Dan will see how many of us will be going to the 12/7/8 hockey game.

Martha has taken some photos for the kiosk. It is the kiosk committee's goal to have new information/display up by 1/1/2009.

Dan asked if the LLNA would be interested in contributing anything toward the gazebo planned to be put by the beach. He will have more information after speaking with Marc Saucier.

Jon will work on getting some quotes for the new bench plaque for the January meeting.

We hope to get the board together before the end of 2008 to discuss the newsletter, SpringThing, Fall yard sale, Spring Clean-Up and replacing the docks.

Thank you Steve for putting up the "Thin Ice" sign at the Wetlands Park.

Thanks to Frank, Jon and Steve for taking the docks out of the water along Lake Shore Drive. It was unanimously decided that if we didn't have at least 6 people to help with this project it won't happen again.

Next meeting: January 8, 2009
